PROJECTS

Hayaa By Noor - Modest Fashion E-Commerce Platform | Live

2025

Next.js 15, TypeScript, PostgreSQL, Drizzle ORM, Razorpay, Better Auth, Resend, Tailwind CSS, Vercel

- Engineered and deployed a production-grade full-stack e-commerce platform with secure authentication, transactional checkout workflows, and responsive UI architecture for a modern fashion brand.
- Implemented transaction-safe payment infrastructure using Razorpay webhooks, Signature verification, and server-side validation to prevent duplicate orders and inconsistent payment states.
- Designed PostgreSQL architecture with 15+ normalized tables, atomic transaction handling, inventory synchronization, ownership-based access control, and 20+ backend routes supporting production deployment on Vercel.
